Senator Wadsworth pleaded that the government be kept as close to the people as possible.

The audience rose and cheered as President Coolidge rose to speak at 18:19 o'clock and the orchestra played "The Star Spangled Banner." The President's address was frequently interrupted with applause.

The President prefaced his prepared address by praising Senator Wadsworth, saying:

Theodore Schroeder, author of books of religion and a friend of Mr. Brown, made public the charges. Bishop Brown, formerly was bishop of Arkansas.

Some of the passages taken from Rishop Brown's book and upon which the heresy charges are based, follow:

"Gods in the skies, Jesus, Jehovah, Allah and Buddah—are all right as subjective symbols of human potentialities and attributes and of natural laws, even as the Stars and Stripes on a pole, Uncle Sam in the capital and Santa Claus in a sleigh are all right as such symbols; but such Gods are all wrong.

"NO SUCH DIVINITY"

"As an objectivity there is no such divinity—meaning the Tripune God, Father, Son and Holy Spirit. He is a subjectivity existing in the imagination of Orthogor Christians."

The charges declare that aimed October 1920 Bishop Brown has been holding and teaching such doctrines in Galion, in Chicago and divers other places in the Stars and Stripes on a pole, Uncle Sam in the capital and Santa Claus in a sleigh are all right as such symbols; but such Gods are all wrong.

Reverting to testimony previously given by Well as to the services of M. L. Fox in securing an exclusive story about oil leases for the Journal from Fall while he was in the Cabinet, Senator Bursum, Republican, New Mexica, asked what Fox now is doing in Chicago.

LABOR'S SPEECH

Leader of Government is Macdonald Congratulated by Ex-Premiers

S'mllarly, on the difficult question of finance, after explaining that the House would be occupied until the end of March with financial business inherited from their predecessors, the Prime Minister urged the need of a thorough in quiry into the whole question of the national debt. He wanted an authoritative committee appointed to make a complete survey of this subject with a view to ascertaining how far taxes entered directly into the cost of production and how far taxation of luxuries did or did not hamper industrial development.

ment.

He promised that the government would submit to the House every resolution carried at the imperial economic conference and leave them to the free judgement of the House.

The Prime Minister insisted that the Labor government was not going to pursue a policy of tranquillity, but a fuller policy of confidence on the part of the whole nation, which would encourage industries like housing and put the hearts and energies of the people into work.

This new spirit, he said was one of most profound importance if

into work.

This new spirit, he said was one of most profound importance if the country was to be pulled together.

ATTACKS DOLES

"If the Labor government has any ambition at all, except to do sober and effective work," he said. "It has an ambition to try and do its work in a business-like way."

The Premier deait at exceptional length with the question of housing and also employment, declaring, in connection with unemployment, that the government would concentrate not primarily on the relief of unemployment, but on the restoration of trade.

The Prime Minister continued: "I wish to make it clear that the government has no intention of drawing off from the normal channels of trade large numbers for extemporized measures, which can only be paliative. That is the old sound Socialist doctrine. And the necessity of expenditure for subaddising schemes in the direct relief of unemployment will be judged in relation to the greater necessity of maintaining undisturbed the ordinary financial facilities and resorces of trade and industry."

The Premier expressed the conviction that the recognition of Russia would give a considerable impetus to trade, but, he warned, "we must not be too imperative."

FEARS NEW WAR

FEARS NEW WAR

FEARS NEW WAR

He devoted considerable attention to the question of agriculture and the revision and reform of rating agricultural holdings, and declared: "We shall not touch tariffs or bounties, which only help to encourage inefficiency." He announced that the government proposed to re-establish the wage boards for agricultural laborers, which were abolished by the proceding government.

Turning to foreign affairs, Mr. Macdonald, after explaining the government's Russian policy said: "The sconer we close the volume of our Russian transactions the better. I propose to close that volume as quickly as possible and epen a new one, in which I hope there will be more amicable passages than in the last one."

Alluding to the serious condition of Central Europe when Labor took office, he said: "There was a feeling of insecurity all around; there were unhappy scrambles for alliances. One felt instinctively that unless some chance came we were going to get into a hopeless condition which would only result

M REAVEN DYER

After all the excitement and hard feetings and the adverse publicity the thing hapened that practically had to happen—the A.A.U. and Charley Paddock kissed. and made up. There seems little left to do now but to go through the formality of telegraphic vote and grant the Pasadena flash the reinstatement that he should have never suffered. Next on the program will come Bro. Paddock's effort to find out whether he can still shake those feet of his the way he did a couple of years ago. That's the important question of the day just now.

Paddock is still young, never did have any had habits and never ran himself out by too much competition. Unless the ankle he injured while trying to make somebody think he was a basketball player has failed to heal properly. Charley ought to be able to ramble every bit as well now as he did four years ago. There is no reason, in fact, why he shouldn't be oven faster than ever, for he has kept in good shape right along and has strength and poise now that he didn't have a few years ago.

Los Angeles ought to have more tennis courts. The sirenuous pastime seems to have taken a new lease on life with the splendid performances in the East of Harvey Snodgrass, Alan Herrington and Conrad Bryant last year and with the renewed interest due to the arrival in Southern California of Walter Wesbrook, a player of undoubted ability. There are more people trying to play tennis now than there ever have been before, and our City Fathers appayently have gone to sleep at the switch.

What few municipal courts the city has left are hard to reach and are not in the best of repair. There are a couple of courts at Sunset Park, a few at Echo Park, a few a

ern California tennis over the Northern brand at the Hotel Huntington yesterday. Snodgrass won the singles from Bob Kinsey, 6-3, 4-6, 6-3, 6-3, and with Westbrook defeated Kinsey and Casey in a terrific doubles finals, 3-6, 6-3, 4-6, 4-2, 5-3. A large and enthusiastic gallery enjoyed the affair tremendously and emitted polite, but vociferous yelps of joy.

After the singles match, which was a fiercely-fought combat in which the speed and agility of Snodgrass overcame the accurate chopping of Kinsey, the four players to participate in the doubles finals came on the court amid the scent of arrsica and Sloan's justify celebrated liniment. Kinsey had cramps in both legs, Casey had a sore toe, Westbrook had a stiff neck and Snodgrass was equipped with a full set of blisters as large and as hot as a flock of Mexican frijoles.

LOOKED BAD

For three sets the doubles match looked like a sure thing for the northerners. Snodgrass was painfully conscious of his blistered tootsies, and Casey and Kinsey were hitting the ball with great accuracy and much violence. Westbrook was giving a first-class imitation of the boys on Bunker Hill, fighting hard for every point. The northerners took the first set, the southerners the second and the boys from San Francisco the third. Somehow or other Snodgrass seemed to forget all about his feet during the ten-minute rest and came out for the fourth set as full of pepper as though he hadn't been on the hot courts all afterneon. Wesbrook continued his apparently tireless efforts to hit everything in sight and the two southerners began to find the holes between the northern players. Snodgras and Westbrook were playing spaykling tennis at the net and winning point after point with clean placements. The fourth and fifth sets were just about alike, the clean shots of the locals carrying away both of them 6-2 and 6-3.

Better Luck, odds on favorite in the feature event, and intercollegiate champion, is, at all limes, an effective runner. He has seen much experience and this experience should be of great value to him. Although he failed to place in the last nationals he was well up at the finish and showed to advantage in preceding and succeeding meets. Driscoil is not old, athletically, and should be in his prime this coming season. He has earned an envisible reputation for himself as a fighter and all in all it follows that he should make a fine showing this coming season. Tom Campbell, formerly of Yale, has given up the half-mile and at the present time is showing to advantage in the quarter-mile distance. His later performances several world's records were recently credited to him—cannot be passed over carelessly, and ail though many experts believe that he has passed beyond his best competitive days, that fact still remains to be proven. Off hand, there seems to be no good reason why Campbell should not stage a real.

Williamson of Stanford is of this type and Marts of Southern California. Marts in particular seems to have the stuff that is needed in this gruelling race. On the Coast it is generally agreed that he has the stamina and speed that is necessary in fast competition. In point of time, he must be included with those men whose records are recorded in the biggest competitions and when a runner has the natural speed and the fighting heart to go, he always has a chance to finish well up.

Of course, in the final analysis, this race is so short that any single mishap or loss of position may totally exclude one of the best runners from a deciding place. This always must be taken into consideration. The element of luck has its say also, but in general a well-trained runner will make his own takes advantaged the

senger and freight service between

The troubles of the Federals are not all over, however. Gen. Highio Aguilar, a thorn in the side of every Mexican adminstration in the past twenty years, took the field again last night. With a small following the guerilla leader held up the Alta Luz railroad station near Esperanza, took the cargo from a ten-car freight train, then allowed the train to run wild down the track. The cars and the two engines dashed around a curve on the mountainside and plunged into a deep canyon.

Aguilar is a professional guerilla. He has rebelled against virtually every government in the past twenty years, but always surrenders when troops are sent against him. At the first outbreak of trouble he again takes the warpath and in his career has caused the Mexicano more trouble than any group of men in its history.

WOUNDED CARED FOR
Mexico City received a grim reminder of the horror and suffering of war last night with the arrival from the Jalisco front of a special train bearing 238 malmed and wounded Federal troops who had participated in the battle of Ocatian.

The wounded Federals were conveyed to the various military hospitals in the city in trucks and small cars, their passage through the city's streets attesting to the grim nature of the conflict, which is looked upon here as one of the bloodiest ever fought in Mexico.

Further details of the fighting were obtained from some of the wounded.

FEDERAL RADIO CORPORA-TION REPORTS JAPANESE SPIES ACTIVE

(BT CABLE-EXCLUSIVE DISPATCH) SHANGHAI, Feb. 12 .- The Federal Radio Corporation, now completing surveys here for the erection of a high-power wireless staion, reports constant obstructions in the purchase of suitable land, due to the activities of secret Japanese miligants in this district. The Federal Radio Corporation of California, in conjunction with the Radio Corporation of New York, has been engaged in a diplomatic battle with the Japanese since 1921 over the right of American inter-ests to construct radio stations in China. Recently it won out and was granted by the Chinese Cabiwas granted by the Chinese Cabinet at Peking the right to proceed. Now, however, when the American interests in Peking purchase land for the location of stations in the Shanghai district they find the country overrun by secret Japanese military agents who are working with the Chinese military in a last desperate effort to prevent the actual erection of the stations.

Shoots Man on Trolley Car After Argument in Hall

Defendant Says He Killed in Self-Defense

States Victim Accused Him of Cheating at Game

(EXCLUSIVE DISPATCH)
DENVER, Feb. 12.—Charles
Westbrooke, on trial in West Side Criminal Court for the murder in a Broadway street car on December 23, 1923, of Arthur Tremlett. took the stand in his own defense and told his version of the trouble that led up to the shooting.

Tremlett was shot and killed following a card game at Thirteenth avenue and Broadway in which Westbrooke, it has been testified, was accused of being crooked.
Following the accusation, Westrooke testified, Tremlett jumped
from his chair, took off his coat
and challenged Westbrooke to a
fight.

"I told him I wasn't able to fight," Westbrooke testified, "and ackowledged he was a better man physically than I."

CALLED YELLOW Then, according to Westbrooke, Tremlett called him vile names and said, "You're yellow." Westbrooke said he ran out of the place, followed by Tremlett and another player in the game, Charles F.

According to Westbrooke's story on the stand, he fied toward

Then, westbrooke testified, Tremlett grasped him by the throat and forced him to the floor. When he feared Tremiett was trying to kill be him, Westbrooke said, he got possession of his pistol and shot Tremiett.

As they fell to the floor together, Westbrooke testified, Tremiett said:
"You —; I'll get you now."

The State sprang a surprise with the said will be said to the car, who testified Westbrooke boarded the car, ran to the front end, turned and leveled a revolver at the center doors. Trem-

On cross-examination West-brooke denied he was in the habit of carrying a gun, but State witnesses have said Westbrooke had the reputation of a gun-toter.
The State and defense rested shortly before neon, after the State had brought on two rebuttal witnesses to show that Tremlett had not displayed violence toward Westbrooke in the blackjack game argument.
Tommy Muro and Albert Sprague, two of the card players, testified that Tremlett had not displayed violence toward Westbrooke, but had said, when Westbrooke was accused of cheating, that "he (Tremlett) would protect his friends and could whip any man who cheated in a friendly card game."

JONES SLATED FOR PHOENIX POSTOFFICE

EXPECTED TO BE CHOSEN FOR TIME

PHOENIX, Feb. 12.—There is expectation of the immediate appointment of James A. Jones as postmaster of Phoenix. He is said postmaster of Phoenix. He is said to have been proferred the position by Senator Ralph H. Cameron and to be one of the first three of a list of five applicants who filed papers for the place under civil service rules. Mr. Jones, for years a Phoenix merchant, recently has been on the secret service staff of the Department of Justice, stationed in this city.

The retiring official is Selim Michelson, who has been in charge of the office for more than eight years, since the death of C. B. Wood, appointed during the first Wilson administration. In the past eight years the office has more than doubled in business receipts, while also designated as the central supply and deposit point for all the Arizona postmasters. the various Chinese secret societies, known to the white man as tongs.

The convention has as its objective the stilling forever of the intense rivalry and hatred evidenced with the intermittent breaking out of tong wars, that have thrown terror into the hearts of policement on the Chinatown beats from Vancouver to San Diego.

Differences between the tongs will be permanently settled, Yick declared today following the receipt of word of the coming convention from the headquarters of the tong in San Francisco.

Through the underground method of transporting messages used by the Chinese with a dazzling speed, equaled only by the monotonous singing of the telegraph wires, the word of the convention was received. It directly followed the execution of the Hop Sing tong man in the Nevada prison last week.

While Gee Jon was not a member of the Bing Kong leaders have come to a realization that the tong warm are deathly to the Chinese cause in America and to the individuals most concerned because of the swift and deadly administration of American justice as evidenced in the hydrocyanic gas chamber in Nevada, Yick declared.

condition that might tend to a repetition of the situation that developed when it was discovered that sewage was polluting one of the wells at the First-street plant of the municipal water system.

The proposed increase in the water rate would produce more than \$1900 a month, and the extra charge would obtain for at least four months, making more than \$28,000 available for the water department, it was explained.

TIEMS OF COST

The principal item of cost will be the rebuilding of the gravity line between the Olive street and West First street reservoirs; \$18,000 was the suggested minimum incres.

A new line also will be installed between a well on Wainut street and the First-street reservoir.

En otros casos, sigue diciendo el señor Cuervo, es oportune el gerundio porque representa un movimiento o aparición actual: "Y esto todo a la sombra—De un parral, coronado—De sarmientos pendiendo, — De racimos colgando." (Villegas, "Anacreóntica XIX"); "He de pintar la furia—De un león acometiendo." (Moreto, "No puede ser . , ". acto I, esc. II).

En opinión de quien escribe estas Pláticas, se explica mejor el uso del gerundio en los dos lugares citudos teniendo presente que ese derivado verbal sirve para expresar actos o hechos transitorios u ocasionales, como son los de "pender o colgar los sarmientos y racimos", y el de "acometer el león". Por otra parte, en esos ejemplos halla cumpilda aplicación esta importantisima regis que nos de l señor de la Peña; "En general, el gerundio podrá construires con un sustantivo siempre que pueda sobrentenderse el verbo ESTAR". No hay duda de que en el primer lugar, desentendiendo, del verso, podemos decir: "de sarmientos que estaban colgando", y en al segundo, "de un león que es.

Coupon bonds in denomination of \$1000, registerable as to principal. Interest payable semi-annually May 1 and November 1 without deduction for Normal Federal Income Tax not exceeding 2%. Principal and interest payable at The First National Bank and Trust Company of Santa Paula, California, or at the main office of Pacific-Southwest Trust & Savings Bank, Los Angeles. Callable, in whole or in part, on any interest date at the option of the Company, upon 60 days' notice at 102 and interest.

THE FIRST NATIONAL BANK AND TRUST COMPANY OF SANTA PAULA - Trustee. IN THE OPINION OF COUNSEL, THESE BONDS ARE NOT SUBJECT TO THE PERSONAL PROPERTY TAX

Mr. M. H. Butcher, President of the Company, summarizes from his letter to us the following salient features of this issue:

The Santa Paula Citrus Fruit Association is a strictly non-profit cooperative Association organized under the laws of the State of California in December, 1905. Its operations have been distinctly success-

ful from the start. Its present membership is made up of 88 growers who own approximately 1480 acres of highly cultivated lemon groves adjacent to Santa Paula, Fillmore and Saticoy, Ventura County, California. Upon completion of the new packing-house, now being constructed, the storage capacity of the Association will be about 450 carloads and the daily shipping capacity about 12 carloads. Present facilities are adequate for the proper handling and shipping of 700 carloads, or about 284,000 packed boxes, annually. The new packing-house will enable the Association to efficiently handle and ship 1500 carloads of fruit annually.

PRODUCTION

The shipments of the Association, representing the production of its members, have increased from 105 carloads during the year 1914 to a total of 618 carloads during 1923. For the season ended November 1, 1923, the Association marketed 247,935 packed boxes of fruit receiving gross returns of \$1,272,605, or about \$5.13 per box.

These bonds will be secured, in the opinion of counsel, by a first closed mort-gage on real estate, packing-house properties and improvements valued at \$571,000; and by pledge of collateral securities. These real properties and securities have been appraised at \$802,070, or more than 2½ times this bond issue.

PAYMENT OF and indebtedness incident to its operations and to pro-rate the same among PRINCIPAL AND its members. The amounts so pro-rated are a charge against the gross reinterest ceipts realized from the sale of the members' fruit and are deducted before

the grower-members receive their returns. The largest amount of principal and interest to be paid on this bond issue in any one year will amount to \$44,500. The marketed production for the season ended November 1, 1923, netted the grower-members the sum of \$987,412, after deducting all expenses and charges.

In addition to the above pro-rated charge the Association is empowered to deduct a sum equal to ½ c per pound, or about 19c per box, on all fruit marketed through the Association. Based on the 247,935 boxes marketed during the past season, this additional charge would produce over \$47,000 annually, which may be used to retire these bonds.

These bonds are being issued to provide funds with which to complete the new PURPOSE of ISSUE packing-house now under construction and for additional working capital. This packing-house, when completed, will be valued at \$265,000 and will be subject to the lien of the trust indenture securing these bonds.

All legal proceedings incident to the issuance of these bonds will be approved by Messrs. Farrand & Slosson, Attorneys at Law, Los Angeles. **MATURITIES**

UNION OIL REPORT

Inventory losses on finished stocks and refining crudes sustained n the period of depression in the oil industry last year cost the Union npany of California over \$4,000,000, President W. L. Stewart states in the annual report of the company's operations released yes terday. He adds, however, that this amount has been more than re covered by the increase in price since January 1, 1924.

Net profits for the year after the deduction of charges for de-preciation, depletion, including \$2,200,000 inventory loss on finished stocks, and other deductible items, was \$8,032,649.39, or the equivalent to \$8.92 on the outstanding stock. This compares with \$11.82 earned

As contrasted with operations for the previous year, the majority of the items show decreases with the exception of interest charges which increased \$347,040.30. Profit from operations dropped \$1.062. 587.87 to \$24,357,393.30, and net income for the year declined \$2,703,-

225.75 to \$8,032,640.39.

Production of crude oil by the company in this State was 18,-741,633 barrels as against 12,453,846 for 1922, an increase of 6,287,787, or 50 per cent. During 1923, eighty-four wells were brought in in this State, which, at the close of the year, were producing about 35,000 barrels per day. There were 165 wells shut in on property owned in fee, which are capable of producing 8000 barrels per day. The average daily production from all sources at the close of the year was 55,000 barrels from 433 wells, exclusive of 13,000 barrels per day shut in in California and Woomins.

FORTUNE

You must know by now that the qil fortunes for small investments are not in "playing the weilis" but in the ownership of the land or leases. If you doubt this, dip into the facts at Signal Hill, Santa Fe Springs, etc. Yes, the old boys who owned the land or secured leases on the land before the gushers came "cleaned up" and your best chance to do likewise, we think, is in New Mexico where we can sell you State leases as low as \$1.00 per acre—5 wells now in oil and a big gasser, 40 acres for \$40 (on terms if you desire) is enough if it "hits." Card brings map and particulars and no obligations.

The land in question, which formerly was submerged, was, according to the bill of complaint, leased February 12, 1906, by the city of Long Beach to Thomas Hughes, noted political character, who recently died; Louis Blankenhorn and D. B. Hatch, and is on the east side of the east jetty and north of Dead Man's Island. This in turn was assigned by 'he lessees to the corporation at present holding it. The lease was for the term of fifty years. The property was filled in several years ago.

The plaintiff has been engaged in warehousing and wharfing, according to the complaint, the property being located en a slip which gives on the harbor through a channel. The construction of the wharf company from access to the

FOOTHILLS TO SEA CITY PREDICTED

High Santa Fe Official, in Telling Road's Plans, Sees Millions to Come

A city extending from San Bersea, with millions of inhabitants, was predicted as the future of Lor Angeles by A. G. Wells, vice-president of the Santa Fe Railway, who arrived from Chicago yesterday Mr. Wells was a Los Angeles resident from 1900 to 1920, serving as general manager of the rail

and that he almost had become lost

"Our faith in Southern California is shown in our improvement program," he said. "We are double-tracking and purchasing new equipment to take care of the tremendous business we foresee. This year we will spend \$22,790,000 for new equipment alone, a part of which will be diverted to the coast lines. The equipment will include \$200 freight cars, of which 2000 will be refrigerator cars, ninety-four all-steel passenger coaches, and fifty-seven new locumotives, of fast passenger and freight types."

motives, or tast passenger and freight types."

The double-tracking program will aimost close the gap of one-track line between here and Chicago, Mr. Wells said, and will require the expenditure of \$6,500,000.
"Tourist travel to California now flows all the year around and is growing heavier every year," he declared.

Exposition Park Track Suit Lost by Driving Club

The petition for an injunction filed by the Los Angeles Driving Club, asking that the Sixth District Agricultural Association, the

trict Agricultural Association, the city and county be restrained from using part of the race track at Exposition Park for a runway to the Coliseum, was thrown out of court yesterday by Judge Burke without leave to amend.

The club's suit was based on the action of the defendants granting the right to use a section of the track for the purpose of constructing cement promenades to the Coliseum from adjoining streets. Such action, the club, held, was in violation of an agreement entered into with the defendants whereby the plaintiff contended it had been given exclusive use of the race track for driving purposes.

the race track for driving purposes.

The defendants answered that the asserted agreement with the driving club over the use of the track had been abrogated by the alleged failure of the club to fulfill provisions of the contract and because of latter agreements entered into between the contract and tered into between the several par-

ties.
In sustaining the demurrer of the defendants, Judge Burks ruled the court was powerless to act other-wise in view of the meager show-ing in the complaint that the de-fendants were not acting within the bounds of their administrative discretion.

And nowhere was the great champion of Freedom better remembered nor more greatly reverenced than in Southern California, home of the majority of those remaining heroes who answered Lincoln's call to arms when the nation's existence was threatened. At Sawtelle, at Patriotic Hall and at other points throughout the Southland they gathered yesterday to sing, with trembling voices, the songs of long ago and to recall the times when they looked upon the face of the peace-loving war-time Chieftain.

Out at Patriotic Hall the Women's Relief Corps of the Robley D. Evans Post gave a reception and entertainment yesterday af'ernoon to members of the Grand Army of the Republic and many of the white-halred comrades assisted in making the program worth while. A feature of the meeting was the singing of old songs by W. A. Packard, commander of the Robley D. Evans Post, and Comrade R. Alcorn.

"One by one we're going home," said James M. Aubrey, Adjutant-General of the Department of California and Nevada. "Last year the department lost \$38 comrades and the number will probably be larger next year. There are now only 4017 in the department, about half of them in Southern California."

curtailed and all Federal offices and courts were closed. Special exercises were conducted at many of the schools, the speech at Gettysburg was recited by hundreds of pupils and the old, but ever refreshing anecdotes of the great Emancipator were retold by a thousand teachers.

The services which Lincoln rendered to his country and to the world at large were recounted in brilliants detail by speakers at the Illinois State Society picnic at Bixby Park, Long Beach. The speakers included Mayor C. A. Buffum, Rev. G. F. Taubman, George W. Prince, Fred Duffey and Arthur Reynolds of Chicago. Nearly 10,000 persons attended the reunion. **NO REGRETS**

Erowning, formerly of Oklahoma City, Okla., who is chairman of the organization committee and will become president of the bank when it cpens May I, next. The Seaboard National will be the tweifth national bank within the city limits. A dispatch from Washington yesterday said the application of the bank has been approved by the Comptroller of the Currency.

Mr. Growning has obtained a lease on the building located at \$12-\$14 South Spring street and will remodel the structure into a modern banking house. The location was chosen, he said, because it is in the center of the financial district and in proximity to six major downtown banks and the stock exchange. It is planned to use this building as a temporary home for a few years and to build a permanent banking house later.

Then came the sudden death of President Harding. Calvin Coolidge was called from a farm in New England to become the Chief Executive of the richest, most powerful and perhaps most respected among modern nations. He answered the call simply, unostentatiously but with the sincerity and courage which is a never-falling stamp of real streatness.

Anta undermined the pillars of an Illinois church to such an extent that the ancient structure had to be rebuilt. Our church pillars are being threatened in many ways. Butterflies have been lighting on them, but it was never thought that the ante would sap their foundations.

THE WORN TURNS

Hungary must be getting back to safety and sanity. The regular censorship of the country has placed an official ban upon that jazzy banans balind that rolled over our own helpless land a few moons back. There are some things worse than war and one of them is an American "song-hit."

FIGHTING BLOOD

Tex Rickard, the sporting boss, saye that pugillism in America is supported by the Italians and the Jews. These peoples not only contribute the big end of the gate money, but they furnish a heavy proportion of the battlers. In England the police administration was long in the hands of justices of the peace who had under them a small number of parish constables. It was not until the passage of the famous Peel Act, 1828, that a regular and adequate constabulary force was established in London. This has been described as the first modern police force in the world, and in the Peel system, in great measure, American cities, notably New York City, found inspiration for the organization of their modern police systems.

Menti," by Jean de Pierrefeu, a "temporary officer" in the army of France. It is extremely well translated by Jeffery E. Jeffery and appears in English under the cryptic title, "Piutarch Lied."

The book has little to do with Piutarch, except the implication that he wrote history to serve temporary or "patriotic" ends, and asmerous writers are now doing the same thing with laudable purposes and poisonous results.

The title of the second chapter, "On the Small Amount of Credit That Should Be Given to Historians of the War," indicates a part of the author's purpose. The "idoi-atrous admiration for everything that concerns the army," blinds the public to the waste of Hfe, the incapacity to look forward, the trust to chance "inspiration." the dull stupidity of many military leaders.

valuable hotel properties in Europe. The hotels were built by their father, the late Camille Brenner, and were taken over by the sons upon his death a few years ago.

Baden-Baden is one of the best-known health resorts in the world. It is noted for its thermal springs which have been used for curative purposes since the time of the Romans. The citw which has a population of about 30,000, is in the heart of the celebrated Black Forest. Its surroundings are among the most picturesque on the European continent, the section being mountainous and densely wooded, except in the valleys, which are in a high state of cultivation. The two hotels have been the favorite resort of wealthy Americans and prominent persons from all parts of the world for many years.

CLIMATE LAUDED

Mr. Brenner is a young man, just under thirty, and is the business manager of the hotels. This is his first visit to America and he expressed himself as much pleased with the hospitality with which he had been received everywhere in this country.

"I stayed for some weeks in New York," he said, "and was charmed with my reception there, but I believe the people are even more courteous in Los Angeles. And the climate here is unsurpassed by any place I have visited. It reminds me of my home town in spring and early summer, as do also the surroundings of this city."

The German has found many features in American hotels which he will adopt in the operation of his own houses. "One of my brothers was here last year and it is probable that the third brother will visit you next year," he said. "We aim to incorporate into our system of management as many American ideas as we find practicable. We have discovered that Europeans have a lot to learn from Americans in hotel management. and we consider the American hotels the finest in the world."

Referring to conditions in Germany, Mr. Brenner stated that he had just received a letter from one of his brothers who said the financial situation is already clearing up as a result of the recent adoption of the renten-mark system and the cessation of the wholesale printing of worthless paper money. The renten-mark currency is backed by gold and securities of stable value and is having a marked effect in stabilizing business conditions," he said. "My brother tells me there has been an appreciable reduction in the cost of living, meat, for instance, now selling for one mark a pound where formerly it cost four marks. "I noticed in the paper yesterday that your Ges. Dawes had proposed to the head of the German Reichabank a new monetary system for Germany, established on a gold basis, which the banker had approved. I hope that it will he found possible to institute such a system, as, in my opinion, it would quickly restore Germany to a state of comparative normaley. The Germans are pinning their faith to the final outcome of the deliberations of the Reparations Commission now in sessions."

First Claim to Dunlap Is Made by Sacramento

Harry J. Dunlap, much-wanted bandit, on a charge of murder in

Arrangements for the true of the Harry J. Dunlap, much-wanted bandit, on a charge of murder in Sacramento county when and if he is captured, were forecast yesterday in a statement by Chief of Police Barney McShane of the Capital City. While deputy sheriffs of San Diego county were on the way to Ensenada, seventy miles down the coast from the Mexican border, in search of the elusive highwayman, Chief McShane said his department's claim on the bandit is prior to that of either Los Angeles or Passdens.

The trip to Ensenada by deputy sheriffs of the Southern county was made in response to a report from a Mexican police officer that he had his eye on a man fully answering Dunlap's description. The man will not be allowed out of the city, according to the report, until the American officers arrive.

Local officers have many cases of highway robbery against Dunlap, who for nearly three years held up motorists on highways, in many instances attacking women members of the parties, and a partial identification of him as the slayer of the parties, and a partial identification of him as the slayer of Harry J. Brown on the night of September 18, 1923 during a hold-up.

William N. Cary of Albany, N. Y. vice-president of the Cary Brick Company, presided at the morning session. Talks on matters of interest to the industry were given by George S. Summerell, secretary of the California Common Brick Manufacturers' Association: Robert W. Tempest, consulting engineer of the California association: Philip J. Meany, advertising counsel of the California association; J. A. Taylor, secretary of the Brick Manufacturers' Association of Los Angeles, and Charles A. Brown of Cleveland, assistant to the president of the national association. Mr. Brown's talk centered on the necessity for local organization of the association and he stressed the importance of teamwork.

In the afternoon the delegates were treated to a visit to brick plants of Los Angeles. After an inspection of methods used they were taken to near-by oil fields returning to the plant of Welter R. Simons for entertainment. The program at the plant included music by a Mexican band, motion pictures and talks.

Added Instruments Expected to Reach 60,000

Approximately 70 per cent more telephones have been added this year to the Los Angeles Exchange than were added up to the same date in 1923, according to an accounting, made public yesterday by N. R. Powley, commercial superintendent of the Southern California Telephone Company.

Up to yesterday, the company has installed nearly 11,000 telephones in 1924, resulting in a met gain of 6500. Powley declared. This, he said, is a 70 per cent greater gain than during the same period last year, or an overshadowing of the 1923 record by 2800 telephones in 1924, resulting in a met gain of 6500. Powley declared. This, he said, is a 70 per cent greater gain than during the same period last year, or an overshadowing of the 1923 record by 2800 telephones for a city of 27.000 people is a striking illus.

Pupils Are Eager to Join in Friends Come to Rescue Competition

From teachers, high school students, State and county officials, public men and women, comes word in hearty indorsement of the national oratorical contest on the Federal Constitution, to which every boy and girl in the public, private and parochial schools is eligible. The interest among teachers and students is especially keen; the teachers see in the contest a wonderful opportunity to create and stimulate interest in the study of the American Constitution, while the boys and girls are thoroughly alive to the opportunity for winning good gebstantial prizes and also for putting the banner of their respective schools at the top of the banner of their respective schools at the top of the contest, namely to give the high school students an opportunity for increased interest in the study of the American Constitution.

Wood has many valuable suggestions to make, especially in regard to the books that should be consulted by the students in preparing their orations and in the manner of selecting the judges.

The one feature of the orations—that they increase respect for the Constitution—Wood cordially indorses as he points out that partisanship and propaganda are two things that can not and should not be tolerated in the schools.

SAN CARLO SINGERS PRESENT POPULAR VERDI WORK

By Edwin Schallert Nothing to become violently excited about, but still very pleasurable was the performance of "La onic Auditorium.

The San Carlo is rapidly approaching the close of their engagement, and only a few works not already heard are billed. There is "La Boheme" tomorrow night, the "Lucia" matinee Thurs-day, and "Il Trovatore" Saturday night, while the operas programed for Thursday and Friday evenings are "Aida" and "Butterfly" in

"La Traviata" invariably cast a very bright atmosphere over the audience, and the reception ac-corded the singers last night was corded the singers last night was generously appreciative, and at times quite enthusiastic. Deservedly so, too. For despite a certain unevenness and at times duliness in the presentation, there were many moments that neared brillance, even if they did not actually stain that goal.

The cast comprised the same principals that Impresario Gallo has put forward in practically every bel canto divertissement since "Rigoletto" a week ago. This

Marin county, and an early decision is expected from him. When Mire Mines filed his taxpayer's action against the Board of Public Service Commissioners, Judge Butler, to whom the case was assigned, was sitting in the Superior Court here as a visiting judge. He heard preliminary oral arguments, and has received all of the briefs in the matter.

PRESENT EFFECT

The decision from him will have an important bearing on the expenditures of the Power Bureau from its revenues in elections this year when the bureau plans to result its \$35,000,000 bond issue as well as renew its attempts to as \$17,000,000 bond issue as well as renew its attempts to as \$17,000,000 bond issue as well as renew its attempts to a \$17,000,000 bond issue as well as renew its attempts to a \$17,000,000 bond issue as well as renew its attempts to a \$17,000,000 bond issue to purchase the electric properties of the Los Angeles Gas and Electric Corporation. A decision favorable to Mr. Mines will halt similar expenditures this year from power revenues, which funds, Mr. Mines and other taxpayers contend, should be used solely for the administration of the Power Bureau attorneys, headed by Special Counsel W. B. Mathews, in their briefs filed with the court, admitted the "jazz" band campaign expenditures preceding

for by the Board of Public Service Commissioners at public expense. The expenditures of \$12,415.15 cited by Mr. Mines and admitted by the Power Bureau were but a small part of the total spent from public funds to win votes for the \$35,000,000 power bond issue. But Mr. Mines selected from the list of expenditures the larger single items and those that were typical examples of the different kinds of propaganda put out by the Power Bureau.

In its work in the rural districts the chief aim of the foundation is to help the people help themselves, the doctor said.

"When we receive a request from a county health board for assistance, we usually send a man to look the ground over to decide what needs to be done." he said. "Each locality presents a different problem and to find a solution requires a period of experimentation. This work is directed by the foundation at its own expense. When a practicable plan of procedure is found for any given locality, the health officers of that district are left to carry it out by themselves."

By this method Dr. Helser says the foundation is accumulating a vast amount of data on how to proceed under different sets of conditions, so that its efficiency is constantly increasing.

Robinson Crusoe's Island Prolonged steamship trips are more popular than ever this winter and not a few are announcing tours which include a visit to Juan Fernandes Island, the traditional scene of Defoe's "Robinson Crusoe." Alexander Selkirk, it will be remembered, was margoned on Alexander Selkirk, it will be remembered, was marooned on this island for four years, and his experiences very probably suggested "Crusoe" to Defce, but the author really put his hero ashore on an island near the mouth of the "great river Orinoko," which is separated by 10,000 miles of sea water from Juan Fernandez.

LONG BEACH, Feb. 12.—Police are at a loss to explain the actions of Charles J. McJuckin, of the Ocean Wave Hotel, Hermosa Beach, who was arrested tonight after an asserted assault on George F. Morgan, proprietor of a book store at \$249 East Anaheim street. He is held in jail here for investigation. It is charged McJuckin entered the book store and asked for a certain book. When Morgan started to give it to him the man is asserted to give it to him the man is asserted to give it to him the man is asserted to struck Morgan without uttering a sound. Running from the store, McJuckin was trailed by Boy Scouts and arrested later at the home of C. L. McWhorter, 2157 Spalding street.

At first McJuckin was booked for suspicion of highway robbery but this was changed to investigation. At first McJuckin was booked for suspicion of highway robbery but this was changed to investigation later when it was declared he did not attempt to take any property. The prisoner is said to have not known the book store man previously. McWhorter said he was puzzled by his friend's actions, MoNTII, VICTIM OF AM-

Demands Candy of Girl After
He Robs Store

"Now fill it up with candy," a bandit instructed Miss Alma Graham in charge of Page & Shaws candy shop, 310 West Seventh street shortly after 11 o'clock last night after he had forced her to put all of the silver and bills in a candy sack first. The loss was \$55 in money and 25 cents in candy.

According to Miss Graham's story to Detectives Adams and Wilson, the bandit was armed. He first ordered the bills to be put in the bag, then, seeing no customers approach, he decided he wanted the silver. Further emboldened by the lack of apparent intuders he decided to top off the lock with the candy.

The missing girl wore a brown trical performance intuders he decided to top off the lock when he was last seen, the father reported.
